# Cut Drywall

EDEN | CHILTON | OAKFIELD | EMPIRE  
VALDERS | MOUNTAIN CREST

**CONSISTENCY IS KEY!** Our natural cut drywall products are selected and graded to the highest tolerances in the industry. This attention to detail allows for quicker installation, saving you time and money. The final results are tighter joints and cleaner lines throughout the project. Our traditional cut drywall is cut eight inches deep for superior performance and durability, and graded by one inch height increments. Optional depths are also available, please see chart.

Depth	Approx. coverage/ton
6"	30 sq. ft
8"	20 sq. ft
10"	17.5 sq. ft
12"	15 sq. ft
14"	12.5 sq. ft

# Outcropping

EDEN | CHILTON | CHESTNUT  
GLACIAL

**ADD GRANDEUR WITH OUTCROPPING.** This wonderfully versatile product gives character to any project. We offer a variety of sizing options graded by the weight of each piece. Available sizes: 1-2 man, 2-3 man, bobcat, and special sizing. Our quarries have been known to produce special pieces up to 15' in length! Heights are categorized in 4" increments: 6-10", 8-12" and 12-16".

**Eden Outcropping** – Available in gray, buff and golden tones.

**Chilton Weathered Edge Outcropping** – Shades of brown, buff, lavender, rust, red and orange.

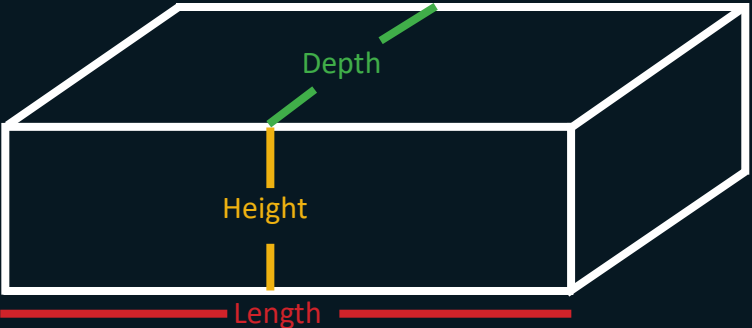

**Chestnut Outcropping** – Sandstone in tones of medium brown to tan.

**Glacial Outcropping** – Produced from our Valders quarry in tones of buff, rust and gray.

EDEN OUTCROPPING,  
SHOWN WITH 6-16" VERTICAL HEIGHTS

**ESTIMATING YOUR OUTCROPPING ORDER**

Determine the Length, Height and Depth of the wall you would like to build. Multiply the dimensions by the weight of the material to get your estimate.

**Length** x **Height** x **Depth** x **150** (pounds per cubic foot.)  
Divide the total by 2,000 (pounds per ton) to get your estimated total tonnage for the project. If calculating by the piece, use 165 pounds per cubic foot.

# Chilton Character Boulders

**SIMPLY AESTHETIC** Looking for something distinctive to highlight your project? Look no further than Chilton Character Boulders. These ancient pieces owe their rare weathering and stratification to mother nature. Each boulder is unique and available in various, non-stackable sizes from 1' – 4'. Our customers have used these pieces creatively from stand-alone elements to benches, table bases and even water features.

## *Holey Boulders*

---

Holey Boulders have the same aged appearance of character boulders in a larger, stackable product. These pieces are untouched by man and provided to you as nature made them. A variety of sizes are available from 1-2 man, 2-3 man and bobcat. Larger pieces may also be available.

# Granite Boulders

**BE BOLD WITH GRANITE!** Functional beauty is what you find with Granite Boulders. Years of water erosion round these pieces for a soft, organic feel. Colors range from a blend of pink, buff, blue and gray with the distinctive black sparkle of granite. Available in graded increments from 8" – 12", 12" – 18", 18" – 24", etc up to 6'.

# Gunmetal Granite Boulders

“Gunmetal” refers to the dark, charcoal color of these fractured granite chunks. The sharp angles and crisp lines of this product lend distinction and give an extra edge to your project.

# Steps

## STEP UP TO EDEN

**Lily Pad Steps** – Irregular shape with a hand rockfaced edge.

**Eden Custom Steps** – Each step is cut to your specifications with a hand rockfaced edge or a natural weathered edge. Bottoms can be sawn at your request for tight dimensional tolerances.

**Valders Custom Steps** – Sawn to your requirements and sandblasted for a slip resistant surface. The front edge is then hand rockfaced for a rustic, natural look.

**Snapped Steps\*** – (Quarry Run Steps) Snapped on all four sides with natural top and bottom.

**Outcropping for Steps\*** – Flat, stackable pieces of outcropping graded specifically for steps.

\*Available in Eden, Mountain Crest, Chilton and Chestnut material.

# Tumbled Pavers

Welcome your guests with an elegant cobblestone walkway or patio constructed with Eden, Chilton or Valders Tumbled Paving. Tumbling adds a subtle aging to the pavers by literally tumbling the material against other stones. Available in 5" x 5", 5" x 10" or custom sizes. Eden and Chilton material is typically 4"-5" thick while Valders is typically 3 5/8". Custom thicknesses are also available.

# Valders Rustic Pavers

**TASTEFUL TERRACES** Look to Valders Rustic paving as a stylish alternative to traditional paving products. The edges are snapped instead of sawed to size. This process cuts down on cost, making Rustic Pavers more affordable but no less beautiful than our other paving products.

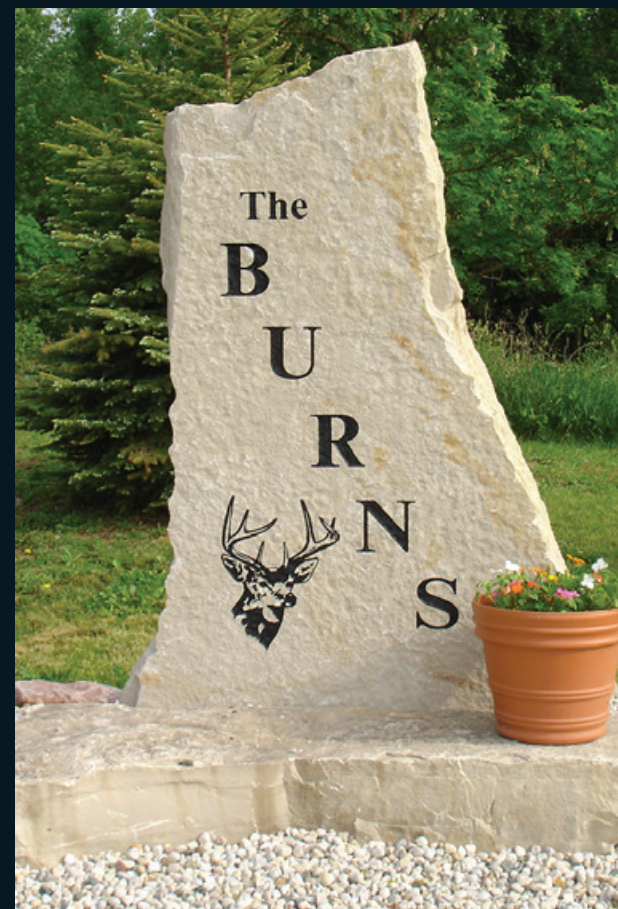

# Custom Stone Signage

## SAY IT IN STONE!

Stone signage is a sophisticated way to identify your property. You may hand select your sign piece, or our talented sales team will be happy to find a piece that matches your specifications. Custom designs, logos and text can be engraved into the material and highlighted in your favorite color. The sky is the limit when it comes to designing your personal signage.

# Specialty Pieces

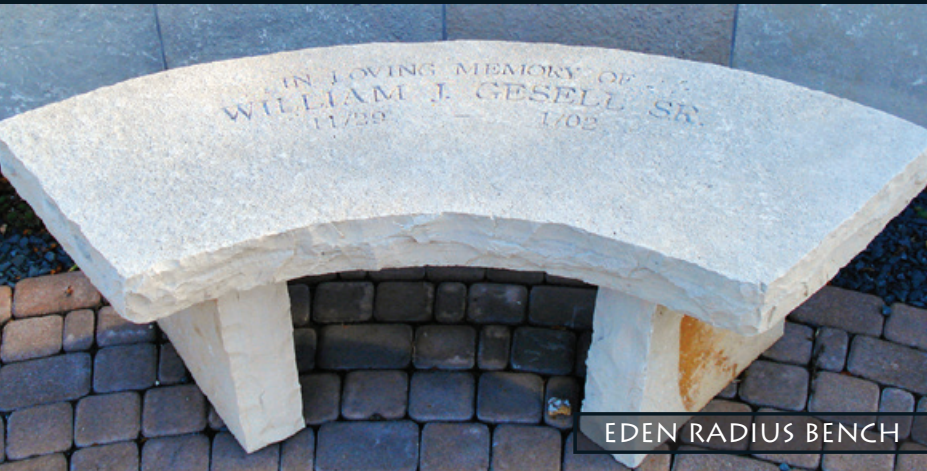

**IMAGINATION** What can we make out of stone? You name it! If you are interested in features and accent pieces for your landscape project, our skilled personnel will assist you in the design process. You have the ability to create something that is as unique as you are. Take a look at a few of our favorite examples to get your creative juices flowing!
